

Malcolm X College

LOCATION
Chicagoland

DESIGN FIRM
Tilton, Kelly + Bell

Student study areas and common spaces have become the focal point within college campuses. Malcom X College wanted to create upscale, community focused spaces for their students and faculty. The Stealth Team Table was enhanced with full grain custom slip-matched walnut veneer and extruded aluminum framing. Powder-coated metal covers fully conceal the power and data underneath the work-surface. The end result creates spaces that were welcoming, collaborative, and incredibly functional (thanks to the integrated power outlets).

PRODUCT MIX

- Stealth Team Tables
 - Material: walnut veneer
 - Custom metal covers for cord protection and concealment
