

Back-Painted Glass and Quartz Top installation for NWBRACES

INSTALLATION INSTRUCTIONS

NWBRACEs Under Back-Painted Glass and Quartz Conference Tops

Four (4) NWBRACEs are included, when required, for structural reinforcement under back-painted glass and quartz conference table tops.

- 1) Fully assemble the table bases and top.
- 2) Locate the four (4) NWBRACEs and supplied screws.
- 3) a) Position two (2) braces at each end of the top running through the bases as shown.

b) The ends of the braces should be 12" from the end of the table.

c) Braces should be positioned as far apart as possible.

Note: Braces will run just to the outside of Foundation bases.

- 4) Secure braces to the underside of the top with the supplied hardware.
- 5) That's it.
